Engineered to last
– 20 years to life.
Designed with Durability in Mind

PDI’s standard and custom specification detention furniture is the cost-effective solution for new construction or retrofits, and contributes to safer correctional environments. Fabricated with hard wearing steel or stainless steel for long-lasting value, PDI furniture is virtually indestructible. Resistance to scratching, dents, and markup withstands years of use and abuse. Stainless steel surfaces are easier to clean and disinfect, helping reduce the spread of germs. Floor bolted or wall mounted versions with multi gauge steel for heavy-duty support ensure secure installation in any environment.

The BK1000 floor mounted single bunk from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**
Fabricated with hard-wearing steel for long-lasting value, the BK1000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

Coated with factory primer for finish painting or powder coat finish.

Designed for use in new construction or retrofits.

Meets CDC requirements.

**KEY VALUES**
- Longer life
- Reduces safety risks
- Storage options

**SPECIFICATIONS**
- **Material**: 10 gauge steel, 2” back flange, 1” hem
- **Support**: 2” x 2” x 3/16” steel angle turned up form part of the bunk legs
- **Dimensions**: Overall: 31” W x 77” L x 18” H
  - Pan: 30½” W x 76½” L

**INSTALLATION**
¾” diameter mounting holes in mounting pads with ¾” anchors.
Anchors not by PDI.

**OPTIONS**
Powder coat finish.
- BK1001 - Under bunk storage drawers.
- BK1002 - Under bunk storage shelves.
The BK2000 floor mounted double bunk from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**
Fabricated with hard-wearing steel for long-lasting value, the BK2000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse. Optional holes for bolts or welded mounting installation. Coated with factory primer for finish painting or powder coat finish. Designed for use in new construction or retrofits. Meets CDC requirements.

**KEY VALUES**
- Longer life
- Reduces safety risks
- Storage options

**SPECIFICATIONS**
- **Material**: 10 gauge steel, 2” back flange, 1” hem
- **Support**: 2” x 2” x ¾” steel angle turned up form part of the bunk legs
- **Dimensions**: Overall: 31”W x 77”L x 53”H  
  Pan: 30½”W x 76½”L

**INSTALLATION**
¾” diameter mounting holes in mounting pads with ¾” anchors. Anchors not by PDI.

**OPTIONS**
- Powder coat finish.
  - BK2001 - Under bunk storage drawers.
  - BK2002 - Under bunk storage shelves.
WALL MOUNTED BUNK
BK3000

The BK3000 wall mounted bunk from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

DURABLE CONSTRUCTION
Fabricated with hard-wearing steel for long-lasting value, the BK3000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse. Optional holes for bolts or welded mounting installation.
Coated with factory primer for finish painting or powder coat finish.
Designed for use in new construction or retrofits.
Meets CDC requirements.

KEY VALUES
- Longer life
- Reduces safety risks
- Storage options

SPECIFICATIONS
Material 10 gauge steel, 2” flange, with or without mounting holes
Support Bench top supported by 2½” schedule 40 steel pipe supports. Intermediate supports provided at 36” on center where bench exceeds 4’ length.
Dimensions Overall: 31”W x 77”L x 10”H
Pan: 31”W x 76¾”L

INSTALLATION
9/16” diameter mounting holes in flange for anchor wall mounting or no holes for welded installation. Anchors not by PDI.

OPTIONS
Powder coat finish.
BK3001 - Under bunk storage drawers.
BK3002 - Under bunk storage shelves.
The DT1000 Dayroom table from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**
Fabricated with hard-wearing steel on table top and seats for long-lasting value; the DT1000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

Unified table and seating construction, with floor bolted, fully welded mounting plate to ensure secure installation and heavy-duty support.

**HEALTH AND SAFETY**
Brushed stainless steel provides an attractive, non-porous surface for easier cleaning and reducing the spread of germs.

**VERSATILE**
The DT1000 is available in either 4, 6, or 8 person seating capacity, and available with optional handicap accessible configuration and has multiple finish options.

Designed for use in new construction or retrofits.

**KEY VALUES**
- Longer life
- Reduces safety risks
- Maintains healthier environment

**SPECIFICATIONS**

**TABLE TOP**
Material: 12 gauge steel, 2" flange  
Support: 4" x 4" x ¾" steel tube post; 1½" flange  
Dimensions: 30" H  
- 4 person: 5’6” x 5’6”  
- 6 person: 5’6” x 7’6”  
- 8 person: 5’6” x 9’6”

**SEATS**
Material: 14 gauge steel  
Support: 3” x 3” x ¾” steel tubes  
Dimensions: 12” D x 18” H

**INSTALLATION**
Floor mounted with ½” anchors. Anchors not by PDI.

**OPTIONS**
Capacity: 4 person (DT1004).  
6 person (DT1006).  
8 person (DT1008).  
Handicap seating.  
Finishes: Stainless steel table & seat tops.  
Stainless steel table top with etched game board.  
Powder coat finish.
The DT2000 floor mounted picnic style dayroom table from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**  
Fabricated with hard-wearing steel long-lasting value; the DT2000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

**HEALTH AND SAFETY**  
Brushed stainless steel provides an attractive, non-porous surface for easier cleaning and reducing the spread of germs.

**KEY VALUES**
- Longer life
- Reduces safety risks
- Maintains healthier environment

**SPECIFICATIONS**
- **Material**: 12 gauge steel table and seat surface  
- **Support**: ⅜” thick channel leg supports; seat arms are constructed from ⅛” steel channels welded to leg supports  
- **Mounting**: ⅝” thick base mounting plates  
- **Dimensions**: 4 person 4’6” W x 4’ L  
  6 person 4’6” W x 6’ L  
  8 person 4’6” W x 8’ L

**INSTALLATION**  
Floor mounted with ½” anchors. Anchors not by PDI.

**OPTIONS**
- **Capacity**: 4 person (DT2004).  
  6 person (DT2006).  
  8 person (DT2008).  
- **Finish**: Stainless steel table & seat tops.  
  Stainless steel table top with etched game board.  
  Powder coat finish.
The round DT3000 Dayroom table from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**
Fabricated with hard-wearing stainless steel on table top and seats for long-lasting value; the DT3000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

Unified table and seating construction, with floor bolted, fully welded mounting plates ensure secure installation and heavy-duty support.

**HEALTH AND SAFETY**
Brushed stainless steel provide an attractive, non-porous surface for easier cleaning and reducing the spread of germs.

The round shaped table top and seats means no sharp corners, helping prevent and lower risk of serious injuries.

**VERSATILE SEATING**
The DT3000 is available in both 4 or 6 person seating capacity, and available with optional handicap accessible configuration.

Designed for use in new construction or retrofits.

Costs less than a traditional pedestal style detention table.

---

**KEY VALUES**
- Longer life
- Reduces safety risks
- Maintains healthier environment

**SPECIFICATIONS**

**TABLE TOP**
- **Material**: 12 or 14 gauge stainless steel
- **Support**: 10 gauge steel support plate with PEM studs
- **Dimensions**: 42” D x 30” H

**SEATS**
- **Material**: 14 gauge steel
- **Support**: 10 gauge steel support plate with PEM studs
- **Dimensions**: 12” D x 18” H

**LEGS**
- **Material**: 14 gauge steel; vertical support with mounting plate for seat top
- **Support**: Vertical support with seat mounting plate
- **Mounting**: 2¼” interior floor anchor mounting plate
- **Dimensions**: 2½” tube

**INSTALLATION**
Field assembly required. Seat post bolts to floor and support arm connects to the bottom of the tabletop. Seat is fastened to the seat post. Anchors not by PDI.

**OPTIONS**
- **Capacity**: 4 person (DT3004), 6 person (DT3006)
- **Configuration**: Handicap version, Etched checkerboard game top.
The FS1000 floor mounted stool from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**
Fabricated with stainless steel for long-lasting value; the FS1000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

**HEALTH AND SAFETY**
Brushed stainless steel provides a smooth, non-porous surface for easier cleaning and reducing the spread of germs.

**KEY VALUES**
- Longer life
- Reduces safety risks
- Maintains healthier environment

**SPECIFICATIONS**

**SEAT**
- Material: 14 gauge steel seat top with 1½" flange
- Support: 10 gauge back plate; 2½” schedule 40 steel pipe
- Mounting: ¼" thick base plate with ½" diameter mounting holes for installation
- Dimensions: 12” diameter

**INSTALLATION**
Floor mounted with ¾” anchors. Anchors not by PDI.

**OPTIONS**
Stainless steel seat top with brushed finish. Powder coat finish.
The round WS1000 wall mounted fixed position stool from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**
Fabricated with hard-wearing steel long-lasting value; the WS1000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

**HEALTH AND SAFETY**
Exposed stainless steel provides an attractive, non-porous surface for easier cleaning and reducing the spread of germs.

The round shaped seat means no sharp corners, helping prevent and lower the risk of serious injuries.

**KEY VALUES**
- Longer life
- Reduces safety risks
- Maintains healthier environment

**SPECIFICATIONS**

**SEAT**
- Material: 14 gauge steel top; 10 gauge back plate
- Support: 10 gauge steel
- Mounting: ¼” thick mounting plate
- Dimensions: 12” diameter, 1½” flange

**ARM**
- Dimensions: 2” x 3” x ½” rectangular steel tube; 3” x 6” x ½” support gusset

**INSTALLATION**
Field weld to embeds or steel wall panel. Bolt on option available with six ¾” diameter holes for ⅜” anchors. Anchors not by PDI.

**OPTIONS**
- Stainless steel seat top with brushed finish.
- Powder coat finish.
The round WS2000 wall mounted stool from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

DURABLE CONSTRUCTION
Fabricated with hard-wearing steel for long-lasting value; the WS2000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

HEALTH AND SAFETY
Brushed stainless steel provides an attractive, non-porous surface for easier cleaning and reducing the spread of germs.
The round shaped seats means no sharp corners, helping prevent and lower risk of serious injuries.

KEY VALUES
- Longer life
- Reduces safety risks
- Space saving

SPECIFICATIONS

SEAT
- Material: 14 gauge steel top; 10 gauge back plate
- Support: 10 gauge steel
- Mounting: ¼" thick mounting plate
- Dimensions: 12” diameter, 1½” flange

ARM
- Dimensions: 4” x ¾” thick steel plate

INSTALLATION
Field weld to embeds or steel wall panel. Bolt on option available with six ¾” diameter holes for ¾” anchors. Anchors not by PDI.

OPTIONS
Stainless steel seat top with brushed finish. Powder coat finish.
INSTITUTIONAL DESK & SEAT
DS1000

The DS1000 wall and floor mounted desk and seat from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

DURABLE CONSTRUCTION
Fabricated with hard-wearing steel on table top and seats for long-lasting value, the DS1000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

Unified desk with two open shelves, and swing seat are wall and floor bolted, with fully welded mounting plates to ensure secure installation and heavy-duty support.

Designed for use in new construction or retrofits.

KEY VALUES
- Longer life
- Reduces safety risks
- Space saving swing seat

SPECIFICATIONS

DESK
Material  12 gauge steel surface with 1½” flange; 10 gauge steel sides and back panels; 10 gauge steel shelves
Support  Gussets with four anchor holes
Dimensions  16”D x 36”W x 30”H

SEAT
Material  10 gauge steel, 1½” flange
Support  2½” diameter, 14 gauge wall steel round tube with mounting plate for seat top. Fully welded support arm is formed upward to fasten to desk top with mounting plate. ¼” thick interior mounting plate for floor anchors.
Dimensions  12” diameter

INSTALLATION
3⁄8” mounting pads at each corner of desk. Mounting pads provided at each corner with 3⁄8” diameter holes for floor mounting with 3⁄8” anchors. Anchors not by PDI.

OPTIONS
Polished stainless steel desk and seat top.
Powder coat.
The DS2000 wall mounted desk and seat from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**

Fabricated with hard-wearing steel on table top and seats for long-lasting value; the DS2000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

Coated with factory primer or powder coat for finish painting.

Designed for use in new construction or retrofits.

**KEY VALUES**

- Longer life
- Reduces safety risks
- Space saving

**SPECIFICATIONS**

**DESK**

Material 10 gauge steel, fully welded seams
Support gussets with four anchor holes
Dimensions 18”W x 18”D x 6”H

**SEAT**

Material 14 gauge steel, 1½” flange
Dimensions 12”W x 18”D x 6”H

**INSTALLATION**

Can be field welded to steel embeds/wall panels, or anchor bolted to wall.

**OPTIONS**

Powder coat finish.
Holes provided for anchor bolts.
The DS3000 wall and floor mounted desk and seat from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

DURABLE CONSTRUCTION
Fabricated with hard-wearing steel on table top and seat top for long-lasting value; the DS3000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

Unified table and seating construction, with floor bolted, fully welded mounting plate to ensure secure installation and heavy-duty support.

Designed for use in new construction or retrofits.

KEY VALUES
- Longer life
- Reduces safety risks

SPECIFICATIONS

DESK
Material  10 gauge steel, 4” back flange
Support    Gussets with four anchor holes
Dimensions 24”W x 18”D x 4”H

SEAT
Material  14 gauge steel, 1½” flange
Support  2½” diameter, 14 gauge wall steel round tube with mounting plate for seat top. Fully welded support arm is formed upward to fasten to desk top with mounting plate. ¼” thick interior mounting plate for floor anchors.
Dimensions 2’0”W x 2’9”D x 2’6”H

INSTALLATION
Desk bolts to wall. Desk/seat arm bolts to floor and connects to the bottom of the desktop. Seat top is fastened to the desk/seat arm after it is bolted to the floor. Anchors not by PDI.

OPTIONS
Finishes
Stainless steel desk top.
Stainless steel seat top.
Powder coat finish.
The BN1000 floor mounted bench from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**
Fabricated with hard-wearing steel for long-lasting value, the BN1000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

Floor bolted, with fully welded mounting plates to ensure secure installation and multi gauge steel for heavy-duty support.

Coated with factory primer for finish painting or powder coat finish.

Designed for use in new construction or retrofits.

**KEY VALUES**
- Longer life
- Reduces safety risks

**SPECIFICATIONS**
- Material: 10 gauge bench top flanged 2” all around
- Support: Bench top supported by 2½” schedule 40 steel pipe supports. Intermediate supports provided at 36” on center where bench exceeds 4’ length.
- Dimensions: 12”, 16”, or 18” W x 8’ L (maximum)

**INSTALLATION**
Field welded to metal walls or embeds or mount with ½” anchors in fully grouted walls or concrete. Anchors not by PDI.

**OPTIONS**
- Finish: Powder coat finish. Stainless steel bench top. All stainless steel.
The BN2000 wall mounted bench from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**

Fabricated with hard-wearing steel for long-lasting value, the BN2000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

Coated with factory primer for finish painting.

Designed for use in new construction or retrofits.

**KEY VALUES**

- Longer life
- Reduces safety risks

**SPECIFICATIONS**

- **Material**: 12 gauge steel surface, 1½” flange, coated with factory primer finish.
- **Support**: Bench supported by ¾” thick gussets spaced at no more than 36” apart.
- **Dimensions**: 12”, 16”, or 18” W x 8’ L (maximum)

**INSTALLATION**

Gussets have ¾” diameter holes for installation.

**OPTIONS**

- **Length**: Up to 8 feet.
- **Finish**: Powder coat finish.
  - Stainless steel top.
  - All stainless steel.
The FB1000 floor and wall mounted federal bench from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

DURABLE CONSTRUCTION
Fabricated from single sheet stainless steel for long-lasting value; the FB1000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse.

HEALTH AND SAFETY
Stainless steel seat provides a smooth, non-porous surface for easier cleaning and reducing the spread of germs.

KEY VALUES
- Longer life
- Reduces safety risks
- Maintains healthier environment

INSTALLATION
Steel mounting angles supplied for attachment to floor and wall. Stainless steel button head security screws are included for assembly.

OPTION
All exposed surfaces with a stainless steel brushed finish.
The SL1000 Storage Locker from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments.

**DURABLE CONSTRUCTION**
Fabricated with hard-wearing steel for long-lasting value, the SL1000 is virtually indestructible. Resistance to scratching, dents, and markup means withstanding years of use and abuse. Powder coat finish or factory primer for finish painting. Designed for use in new construction or retrofits.

**KEY VALUES**
- Longer life
- Reduces safety risks

**SPECIFICATIONS**
Material  12 gauge steel locker with interior shelf. Front and sides perforated for ventilation. Front door includes handle and clasp for padlock (padlock not included).
Dimensions  1’6” W x 1’6” D x 3’1” H

**INSTALLATION**
Locker bolts to wall with 3/8” anchors. Anchors not by PDI.

**OPTIONS**
Finish  Powder coat finish. Stainless steel.
The SS1000 folding shower seat from PDI provides cost-effective, long-term value, and contributes to safer correctional and institutional environments. A versatile shower environment is created for regular or handicap occupants as needed.

**DURABLE CONSTRUCTION**
Fabricated with stainless steel for long-lasting value; the SS1000 is virtually indestructible. Resistance to corrosion, scratching, dents, and markup means withstanding years of use and abuse.

**HEALTH AND SAFETY**
Brushed stainless steel provide a smooth, non-porous surface for easier cleaning and reducing the spread of germs.

**KEY VALUES**
- Corrosion resistant
- Reduces safety risks
- Maintains healthier environment

**SPECIFICATIONS**
- **Material**: 10 gauge stainless steel seat
- **Support**: 1” diameter x 11 gauge stainless steel round tubes; 7 gauge stainless steel folding support guide
- **Dimensions**: 22½” D x 30” W

**INSTALLATION**
Mounting plates with ⅜” diameter holes for ⅜” anchors. Anchors not by PDI.

**OPTIONS**
Left hand (SS1000L/H).
Right hand (SS1000R/H).
